

Home Countries Internationals Lauder – 2007

Lauder 2007 will be long remembered as the 'Muddy Meeting'. The area behind the range had become a quagmire by the end of the second day with cars unable to get into, or out of, the car parking area without the assistance of a tractor. Fortunately the local organiser, Ian Stevenson, was able to provide two tractors on duty throughout the week without which we would have been well and truly stuck.

However, the Scottish weather still had one more trick up its sleeve. On the Thursday evening as I left the range at about 7.30 pm the rain returned, continued through the night, and was "stair-rodding" on the morning of the match. Our allocated section of the firing point at 100 yds was well and truly wet so I lodged an official complaint, the result of which was that all teams agreed to shoot 40 shots at 50M.
